

Go abroad and develop yourself with Abroad Consulting in Marseille!

You're totally spoiled for choice for things to do, see and experience in **Marseille, the mesmerizing French city by the sea**. The key attraction of Marseille is the city itself: the atmosphere, flux and throbbing beat of a big port city full of all the peoples of France's former colonies. However, Marseille definitely offers some must-not-miss sights! For example, take the view from the Basilica Notre-Dame de la Garde. It is simply breath-taking as you see Marseille spread out below and around you! Different but equally beautiful is the Old Port, where you can take a boat to visit the famous prison island of If. And to top it all, Marseille owns a beautiful beach, La Couronne, with clear blue water and pristine sand. Being the third-largest metropolitan area in France, the city has a strong economy, mainly boosted by its port, which is the largest in France.
