

Go abroad and develop yourself with Abroad Consulting in Dublin!

You think the only thing Ireland has to offer is rain and sheep? **Think again and meet Dublin!** Being more than 1200 years old, Ireland's oldest city has much more to offer than you might expect! You can travel through time visiting Trinity College and its Book of Kells, written in the year 800 and admire the library and students' outfits, which were both inspiring J.K. Rowling for her Harry Potter books. For a bit more thrill, you could wakeboard in the docks, kayak or kitesurf in the city. And afterwards you warm up with "a cuppa" (tea) and a scone at many of the cosy cake shops (try "Queen of Tarts" and you won't be disappointed) and spend your night enjoying live trad music in one of the many, many pubs around town!

Visiting Dublin is high on the travel wish list of many young people! Abroad Consulting can organize your tailored study trip to Dublin based on Erasmus+ scholarships.

In Dublin* we offer...

- internships in various business areas, such as administration, marketing, restaurants, hotels, kindergartens..
- English language courses for groups in small, closed courses
- job shadowing - we visit companies in small groups to follow the daily routine of the company. We work together with companies like the Guinness Brewery, Amazon and Google
- language courses in combination with job shadowing/ internships.

Abroad Consulting also arranges a place to stay for students and their teachers/ tutors. We are in good contact with various guest families, youth hostels and apartments and will always find a fitting solution for your stay in Dublin together with our partners.

Our Abroad Consulting team gained its competency working in the Erasmus+ field of student mobility over the last 8 years and is your stable partner for student mobilities!

Do you want to visit Dublin or any other city with us? Please contact our team by phone or email: +49 30 60275836 / info@abroadconsulting.eu*

Visit one of the highest cliffs of Europe: Cliffs of Moher
